

# My Snowman

By: Dalton 2A

1. The first thing I did was create a background color. The color is called #ccffff.
2. Then I created three white balls stacked vertically in the middle of the page. The bottom ball is about two and three fourths inches wide and two inches tall. The middle ball is about one and a half inches wide and one and one-fourth inches tall. The top ball is about one and a half inches tall and one and one-fourth inches.
3. After that, I made arms. The right arm is about one inch to the wrist and angling up about 45 degrees and make the line size 11. The left arm is about three-fourths of an inch. All the fingers are about one-half of an inch on both arms and the line size for the fingers is 4.
4. Then I made eyeballs. Both eyeballs are about one-fourth of an inch in diameter and one-fourth of an inch wide. They are about three-fifths of an inch apart.
5. After that, I made buttons going up and down. Each button is about one-fourth of an inch wide. The buttons have to be on the chest
6. After that, I made a blue scarf. For the scarf, I made the line size 15. Then I made a line under the top snowball. After that I made another line on the right side under the snowman going down.
7. Then I made a black hat. For my hat I drew a rectangle coming out of each side of the snowman's head. Then I made a square on top of his head.
8. The last thing I did to my snowman was make a nose. For my nose, I made a side-ways triangle pointing right.

Now you are done with my snowman!!!!!!!!!!!!!!!!!!!!!!
